Product Owner for Sprint 2 : Anush Baskaran (abaskara)
Product Owner for Sprint 3: Tong Fu (Tony)

Sprint 2 Features:
- **Start, Pause, Mark as Complete**
  User can pause a task, start it again multiple times.
  The time the task is paused and time spent till that time need to be recorded each time
  the task is paused.
  This will be done using AJAX
- **Edit Task**
  The user can edit a task which will include changing task name, updating expected finish
  time. due date, adding percent completion and comments.
- **D3 visualization for time remaining, completion status**
  Each task will have a d3.js progress bar visualization. This visualization will show the
  time spent progress and a percent completion progress.
